

User Manual: Course Selling Mobile Application

Introduction

This user manual describes how to use the Course Selling Mobile Application for both teachers and students. The application allows teachers to create and manage courses, while students can browse, purchase, and access the courses they are enrolled in.

1. Home Page

The home page of the application varies based on the user type:

1.1 Teacher Home Page

- After logging in, teachers are directed to the Teacher Home Page, which displays three navigation options:
 - My Courses: Manage and view the list of courses created by the teacher.

1.2 Student Home Page

- After logging in, students are directed to the Student Home Page, which also contains three navigation options:
 - My Courses: View the list of courses the student is enrolled in.

2. Teacher Functionalities

2.1 My Courses

- Teachers can view a list of courses they have created.
- The Add New Course button allows teachers to create a new course by entering information such as the course name, price, description, and video/PDF materials.
- Teachers can also edit or delete existing courses using the Edit and Delete icons next to each course.

2.2 Creating and Editing Courses

- Teachers can fill out the following fields:
 - Course Name: The name of the course.
 - Category: The category the course belongs to.
 - Price: The price students will pay to access the course.
 - Description: A brief description of the course.
 - Video URL: A YouTube URL to provide video materials for the course.
 - PDF URL: A link to a PDF document as course material.
- After submission, the course will be listed in My Courses, and students will be able to view it in the course catalog.

2.3 Lessons Page

- Teachers can view the list of lessons in each course.
- They can add, edit, and delete lessons within a course.
- For each lesson, the teacher can provide a video URL, PDF URL, and other lesson materials.

3. Student Functionalities

3.1 My Courses

- Students can see the list of courses they have purchased.
- Clicking on a course allows students to view the list of lessons within the course.

3.2 Viewing Lessons

- Students can view each lesson in the course, which may include:
 - A Video (if provided by the teacher) displayed using YouTube Player.
 - A PDF (if provided) with an option to view or download the PDF.
- Students cannot edit or modify the lesson content but can leave reviews after completing the course.

3.3 Purchasing Courses

- When viewing available courses, students can:
 - See the course details, including price, description, and teacher information.
 - Purchase the course using their available credit.
 - After purchase, the student's credit will be reduced by the course price, and the course will be added to My Courses.

4. Authentication

- The application supports both Teacher and Student roles.
- When logging in, users must provide a valid email and password that match their role.
- Based on the credentials, users are directed to either the Teacher or Student Home Page.

5. Payment System

- Students can use their credit to purchase courses.

- If the student does not have enough credit, they will be notified, and the transaction will not proceed.
- Upon successful purchase, students can access the course, and their credit will be deducted accordingly.
